

Anouk, Make It Rain

Make it rain

Right behind that perfect face
There's someone who keeps
Secrets hidden well
Think I don't want to know
Reasons why you're crashing over me

I don't look back
Darling so it goes
But I regret
We couldn't

Make it rain
And all our dreams were left to dry
can't Make it rain
There's not one cloud left in the sky
You say you tried
we bled, we've cried
We couldn't make it rain

We had everything to live for
Even if we didn't understand
The game of give and take
Was more than just the sum
of what we make

The most of time
So we'll move on
And leave it all behind
Cause we couldn't

Make it rain
And all our dreams were left to dry
can't Make it rain
There's not one cloud left in the sky
You say you tried
we bled, we've cried
We couldn't make it rain

Now I can't help thinking about
Places we would go
But I won't be around no more
But this fault won't be mine
Everything is gone

Make it rain
And all our dreams were left to dry
can't make it rain
There's not one cloud left in the sky so
Make it rain
All our dreams were left to dry
Can't make it rain
There's not one cloud left in the sky so
You say you tried
we bled we cried
We couldn't make it rain
you said you tried
We bled we cried
you said you tried
We bled we've cried
