

Anthony Callea, Rain

I remember when we met
Before I was invisible
I thought I'd play it hard to get
Pretend I'm unapproachable
But somebody else came along and
Took all the chances that I missed
Stuck on the sideline
I keep thinking there she goes

Chorus:

Falling like rain
No, I don't get to hold her tonight
Falling like rain
I was pushed to the back of the line
Cos even though I need her love, and crave her touch
I guess I wasn't fast enough
She's falling like rain
Just not for me, not for me
Why I took the longest road
I'll have to plead insanity
It's like my pride put on a show
And didn't sell a single seat
While I was talking in riddles
Somebody else made perfect sense
Stuck on the outside
I keep thinking there she goes

Chorus

What do you do
What do you say
When the best thing has passed you by
Where do you go
How do you know
If she'll come back another time
She's falling like rain - falling like rain
She's falling like rain - oh, oh, oh
She's falling like rain - falling like rain
She's falling like rain - she's falling
She's falling like rain

Chorus
