

Anthony Evans, Be Still

Always thought You wouldn't love me just the way I am
So I tried to satisfy You, I didn't understand
How misguided I was in my search to know Your love
I was working hard in all the wrong ways
Living life chaotically never sitting at Your feet
'Til You taught me the true meaning of grace
Be still, there is peace in Your arms I am free
My heart is all You want from me
So I will be still, hey, yeah, hey, hey
It's so crazy yet so amazing, now I finally see
I tried to do my best for You when all You wanted was me
You saw right through my foolishness, never loved me any less
Waiting with Your arms opened wide
Now, I'm no longer afraid
I know Your love for me won't change
It took me so long but now I've realized
Be still, there is peace in Your arms I am free
My heart is all You want from me
Here I am, distractions aside
Wanting You to change my life
I'm resting in Your relentless love
I've finally found that You are enough
Hey, hey yeah, yeah, yeah
Be still, there is peace in Your arms I am free
My heart is all You want from me
Oh, I will be still
Be still, there is peace, in Your arms I am free
My heart is all You want from me
Be still, hey, yeah, be still, hey, yeah
