

Anthrax, Strap It On

And my plate is full
And I feel the pull
And my time is spent
Searching for something that came and went

Take me back
Take me back to a golden time
From '75 to '79
It makes it easy, so easy for me

Strap it on (Strap it on)
Strap it on (Strap it on)

Strap it on my old school
I changed by staying the same

And it grows inside
Metastasize
And my brain goes crazy
Sepia toned days are hazy

Take me back
Take me back to a heavy time
From '85 to '89
It makes it easy, so easy for me

Strap it on (Strap it on)
Strap it on (Strap it on)

Strap it on, on my old school
Strap it on, my old school
Strap, strap on my old school
Strap it on, my old school
I changed by staying the same

[Solo]

Strap it on, on my old school
Strap it on, on my old school
Strap, strap on my old school
Strap it on, my old school

Take me, take me, take me back..
