

# Anti-Flag, 20 Years Of Hell

I've stood by, and I've cried,  
while my friends have died  
You ever had a friend kill  
themselves, shot down, or  
knifed?  
Just when I think it's happened  
for the final time,  
it comes knocking back again to  
devastate my life

20 years of hell  
20 years of hell  
For I've been living far too long  
and I wish my life was done

I said, "Good-bye" to you, on a  
summer's night  
Now I wish that I had stayed  
with you but, oh it's too late  
next thing I knew was that  
you'd been in an attack  
and you were laying in a cold  
morgue stuffed into a body bag

I saw you last night you said I  
was wrong  
And where'd I get the idea you  
were gone?  
I woke up to sounds of my own  
screams  
I woke up in a sweat it was just  
a dream  
and that dream goes on and on  
and on...  
with it ever end? Well I don't... I  
don't know  
I don't ... know...
