Anti-Flag, Die for your government

Chorus :
You gonna die, gonna die, gonna die for your government?
die for your country? that's shit!
there's a gulf war vet, dying a slow,
cold death and the government says,
"we don't know the source of his sickness."
but don't believe what they say,
because your government is lying they've done it before
and don't you know they'll do it again a secret test,
government built virus "subject test group: gulf battle field troops"
chorus
first world war veterans slaughtered,
by general eisenhower you give them your life,
they give you a stab in the back radiation, agent orange,
tested on us souls guinea pigs for western corporations i never have,
i never will pledge allegiance to their flag you're getting used,
you'll end up dead!
chours
i don't need you to tell me what to do
and i don't need you to tell me what to be... fuck you!
i don't need you to tell me what to say
and i don't need you to tell me what to think!
what to think! what to think, what to think,
what to think, think, think, think!
chorus
