

Anti-Flag, Outbreak

The president got caught getting head
So soon some people will be dead
Iraqi bodies scattered around
By the cluster bombs that land in their barracks and their homes

They (i.e. U.S. Representatives) get on T.V. and openly state
That Saddam Hussein should be removed from his place
If anybody said that about the U.S. president
The U.S. military would rip them a new ass

So where is the real terrorist?
In the Middle East or the U.S.?
So who is the real terrorist?
Is it Saddam Hussein or your own president?
