

# Anti-Flag, Spit In The Face

""(Verse 1)""

How can we be free?

The bloodline of kings in the house of white  
Lynch law abiding citizens cashing in their rights  
The sky is on fire, the sky is on fire  
It's blood red and torching every (new) horizon that it desires...

""(Chorus)""

Spit in the face of the deceased (bite down on your tongue and turn the other cheek)  
Spit in the face of the deceased (disappear like a ghost when we pass on the street)  
Spit! Spit! Spit in the face (I don't give a fuck what you think of me)  
Are we getting anywhere? I am getting out of here

""(Verse 2)""

How can we be free?

Abandoning the children in the forest to feed ourselves  
We will all stay more healthy if we do not distribute wealth  
Aimed friendly fire, aimed friendly fire  
There is only greed living in the life that we desire

""

(Chorus x 2)""

Spit in the face of the deceased (bite down on your tongue and turn the other cheek)  
Spit in the face of the deceased (disappear like a ghost when we pass on the street)  
Spit! Spit! Spit in the face (I don't give a fuck what you think of me)  
Are we getting anywhere? I am getting out of here

""(Bridge)""

As we set sail across the raging sea  
(As we set sail across the raging sea)  
Unconquerable by reality  
(We are unconquerable)  
As we set sail across the raging sea  
(As we set sail across the raging sea)  
Unconquerable by reality  
I am infallible, I am untouchable

""(Chorus)""

Spit in the face of the deceased (bite down on your tongue and turn the other cheek)  
Spit in the face of the deceased (disappear like a ghost when we pass on the street)  
Spit! Spit! Spit in the face (I don't give a fuck what you think of me)  
Are we getting anywhere? I am getting the fuck out of here

The nation is dead, long live the new nation
