

Anti-Flag, Stars And Stripes

Welcoming with open arms and with open hearts
In the end they found their arms in shackles and their hearts torn out
This country named America is built on graves
Of the natives who lived here before genocide took place
The word America means freedom as in, free to kill the free...

Don't fly those stripes, those stars-and-stripes for me, for me
Don't fly those stripes, those stars-and-stripes for me, for me
For ME!!

It's the same today as then, as U.S. dollars are spent
To rid the native insurgence in Mexico, in every U.S. Corporate interests
The 3rd world is a modern day playground for multinational companies
And the tax dollars we're forced to pay, fund these heartless U.S. policies
Their explanation... national interest, national security...

Don't fly those stripes, those stars-and-stripes for me, for me
Don't fly those stripes, those stars-and-stripes for me, for me
They stand for greed, they stand for hate but nothing I believe!
Don't fly those stripes, those stars-and-stripes for me, For me

At little big horn national cemetery, there's a monument that reads:
To the soldiers killed in Montana while clearing hostile Indians away...'
And there's a flag there flying high, over the fallen killers' graves
When they call on me to die for them I'll say... not me!

Don't fly those stripes, those stars-and-stripes for me, for me
Don't fly those stripes, those stars-and-stripes for me, for me
They stand for greed, they stand for hate but nothing I believe!
Don't fly those stripes, those stars-and-stripes for me, For me
