

# Anti-Flag, They Don't Protect You

The rich control the world's economic state  
Creating poverty for their own sake  
Poverty breeds crime, that threatens you  
So you support the police in what ever they do  
You give up your rights don't you know the truth?  
It makes no difference they.. don't protect you!  
Don't protect you! don't protect you!  
Don't protect you! don't protect you! and that's the truth!

This police state only benefits the rich  
Because the cops give them power to keep us all quiet  
With police disguised as the guardians of the masses  
We'll never suspect their role is to save the rich bastards!  
You're all complacent you're totally fooled  
You bought the system's lies but they.. don't protect you!  
Don't protect you! don't protect you!  
Don't protect you! don't protect you!  
You've been taught to eat the complacency brand  
Fed to you by your rich slave masters hand  
You don't need to stand against this covert class war  
Because you're brainwashed in the laws some old rich bastard's wrote!  
And the police would kill you if they could that's their job,  
No they.. don't protect you! don't protect you!  
Don't protect you! don't protect you! don't protect you!
