Change My Ways

You have come

Wipe away the tears and all I've seen

I'm in His place and I know the place that I'm in

Fears aside there's light inside of me

And I'm seeing things more like how they could be

Thought that I'd would make it on my own

Thought that I'd be fine here on my own

Do you believe that I can change?

Do you believe I'll up and change my ways?

Do you believe then I'll have faith?

That He will clean the slate and change my ways

... right through

You have won

And wiped away the fears and all I've been

I'm feeling grace, the amazing grace that I need

Years go by with peers beside of me

And I'm feelin' safe and sound, but silently

Thought that I'd would make it on my own

Thought that I'd be fine here on my own

Do you believe that I can change?

Do you believe I'll up and change my ways?

Do you believe then I'll have faith?

That He will clean the slate and change my ways

... right through
