Change My Ways

You have come

Wipe away the tears and all Ive seen

Im in His place and I know the place that Im in

Fears aside theres light inside of me

And Im seeing things more like how they could be

Thought that I'd would make it on my own

Thought that I'd be fine here on my own

Do you believe that I can change?

Do you believe Ill up and change my ways?

Do you believe then Ill have faith?

That He will clean the slate and change my ways

... right through

You have won

And wiped away the fears and all Ive been

Im feeling grace, the amazing grace that I need

Years go by with peers beside of me

And Im feelin safe and sound, but silently

Thought that I'd would make it on my own

Thought that I'd be fine here on my own

Do you believe that I can change?

Do you believe Ill up and change my ways?

Do you believe then Ill have faith?

That He will clean the slate and change my ways

... right through
