

Antoine Clamaran, Believe

You can't sleep at night
Thinking about the problems you faced
And the friends you thought you can count on
They just get in your way
So when you wake up in the morning
All you gotta do is say to yourself
Today will be the day I'll make it
Coz I don't need anyone else
Ohhh
If you believe
You're find the way!
You're find the way!
If you believe in yourself (you'll make it)
Everyday of your life (you'll make it)
That nothing drop your way (you'll make it)
You can make it today (you'll make it)
To be what you wanna be
To go when you need to go in life
To do the things you need to for yourself
All you gotta do
All you gotta do is leave
Just hold on and believe yourself
Just hold on and don't let go in life
Just hold on, everything will be alright
Hey!
Yeah!
You're find the way!
