Anything Box, Stillness

Anything Box
Elektrodelica
Stillness
(claude s.)

I watched the world sedate itself,
And as i prayed i found myself,
Opened to the moon kissed sky...

In the dark i wondered why, everything must be so hard,
I watched the world and dreamed of light.
I saw the pictures lying still,
I watched the world and tried to sleep.
Within myself i saw the cracks where all the pains of life leak through.
I watched the world sedate itself,
I prayed to god that it would end...

I watched the world, through my reflection,
I watched the world, and waved hello...

I watched the world, i said hello.
Here comes the sun...
