Where Is Love And Happiness
(claude s.)

You can tell by my revelations
That i don't know who i am
All i need is an explanation
And i'm sure i'll understand

Love is made like grains of sand
Moving in the tide
Love is worn as memories
You seem to keep inside

Where is love and happiness?
C'mon show me the way
Where is love and happiness?
C'mon show me the way
C'mon...

I can build on my exaltations
But alone i'll never win
You can teach me how to smile,
And to alter all my sins

I will give you anything
I'll try hard to believe
I can learn to laugh again
Oh so eagerly

Where is love and happiness?
C'mon show me the way
Where is love and happiness?
C'mon show me the way
C'mon...

I thought i knew everything
Until i saw your face
I'll hide mine inside the mask,
And wait for you to say

Where is love and happiness?
C'mon show me the way
Where is love and happiness?
C'mon show me the way
C'mon show me the way...
