Ape, DIY

Make a bomb all day long you know you can't go wrong
Now it's all made up your singing a brand new song
Watch it fall one for all blow down the fuckin wall
Go to the scene and see the bodies crawl
You will fight and you might die
But that's cool cuz to you know that's fuckin right
While your here their in there
You will show them that you just don't fuckin care
All alone whatcha gonna do
When the world has all left you
All your friends are gone and no one to help
What did I say boy do it yourself
All the kids in your class said you wern't cool
So ya took a bomb and blew up your fuckin school
Ya don't care if there's bodies all around
You rather see them dead on the ground
I DON'T CARE LET THEM LIVE IN FEAR
Oh mother fucker your fight is so sincere
The job is done not a dream it's real
Take a piece of the school that's your fuckin souvenir
All alone whatcha gonna do
When the world has all left you
All your friends are gonna and no one to help
What did I say boy do it yourself
(Bunch of fuckin nas)
