

Apex Theory, Come Forth

Apex Theory
Topsy-Turvy
Come Forth
Questioning everything that we say
Back and forth with the life we've made
Don't listen when the other side speaks
Leave me be...

Left as though I can see through the
mind-sided, it shivers with joy
I have overcome you
I have overcome...you

Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving...

What a beautiful sight unseen
Never felt the welcomed surprises
Breathe new air and pull away
Far from you...

If you even apologize
it's pointless if you ask me
I am one with myself
I am one with...myself

Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving...

Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving now
Thanks for nothing
I have waited
Comfort is arriving...

Thanks for nothing
I have waited
Comfort is arriving now...
