

# Apocalyptica, Path Vol. II (Feat. Sandra Nasic)

I want to live in fire  
With all the taste I desire  
It's all good if you let me dive  
With some sharks on the ground

You lose your routine  
You lose your routine  
You lose your routine  
'Cause I found my path

What the hell are you trying?  
Now I know there is something more  
What happened to you?  
Still standing on my path  
Are you still denying?  
Now I know there is something more  
Ythat this is the truth  
It's all in you!

What do you came for?  
What did you expect to find?  
What do you live for?  
What did you expect to find?  
What do you live for?  
What did you expect to find?  
What do you live for?  
What did you expect to find?

So boundless I feel  
And boundless all my fears  
Stop running back to old times  
Stop running back to old times

You lose your routine...  
'Cause I found my path

What the hell are you trying?  
Now I know there is something more  
What happened to you?  
Still standing on my path  
Are you still denying?  
Now I know there is something more  
That this is the truth  
It's all in you!
