

# Apoptygma Berzerk, Paranoia

Chew the pill that tastes like hell, but gives you strength  
Embrace the drug that makes you mad, cause still it turns you into Something else  
Feel the need for love grows stronger!  
Swap your mind for a mirror-search, and shake until the break of day

One day you'll realize that you were wrong  
And you'll regret that all this happened  
Did it (all) happen?  
Some day you'll realize that you were wrong  
(You'll be) Left with paranoia, (as your only friend)

Your mind is full of enemies, the room is full of energies  
That want to take control  
They're all around you, and you're all alone  
Your mind is full of enemies, the room is full of energies  
Haunting your soul  
They're all around you, and you're on your own

One day you'll realize that you were wrong  
You'll regret that all this happened  
Some day you'll realize that you were wrong  
To be left with Paranoia
