

April Wine, Holiday

Well the super models in those magazines
They've been to places that I've never dreamed
Well they look so nice out on some sandy beach
But for me I've always found it out of reach

Oooooooooo take me on a holiday
Oooooooooo I need a holiday

The hotel and life for me would be alright
We could always catch an early mornin' flight
As you treat yourself like in a movie scene
But its just another place I've never been

Oooooooooo take me on a holiday
Oooooooooo I need a holiday

I call you up on your telephone
And leave a message there since your not home
I've got to go I've got to get away
Please come and take me on a holiday

Oooooooooo take me on a holiday

Last nite I dreamed I was in Sante Fe
And then went on a flight to San Jose
Well I know that you don't really like to fly
But to see the world maybe you'd like to try

Oooooooooo take me on a holiday
Oooooooooo I need a holiday
Oooooooooo take me on a holiday
Need a holiday
Holiday
