Lying in the sunshine, i feel like gettin' high
And taking a sip of cool wine, reflection in your eyes
A face i know as someone, who smiles and make me say

That i wouldn't want your love any other way

You're makin' my days feel empty
You're makin' my nights feel full
I wonder where i'm goin', it all depends on you
You give me all i am, now what can i give to you

Cause i wouldn't want your love any other way
You know i wouldn't want your love
How could i live without your love
You know i wouldn't want your love any other way

Lying in the moonlight, i feel like comin' down
Sometimes i feel so lonely, seems like i go around
And i can't hear you breathing, i see within the sounds

Cause i wouldn't want your love
How could i live without your love
You know i wouldn't want your love any other way
You know i wouldn't want your love
How could i live without your love
You know i wouldn't want your love any other way
Any other way, any other way
