

Apt 3g, Control Freak

I like getting drunk alone
late at night turn off the telephone
let the stupid world pass me by
success or mess I don't care
I just wanna get high
but if you think that I'm running
away from my problems
you must be out of your mind
Walt Disney was right
it could happen tonight
it's small world after all
I want control I'm gonna get it
rip it right out of your hands
don't you ever forget it
you don't like my lyrics
you don't like the way I sing
why did you have to go and do that
now you've ruined everything
couldn't let it be
couldn't set it free
you took everything away from me
gonna be some changes around here
I want control I'm gonna get it
rip it right out of your mouth
don't you ever forget it
it just comes naturally
as easy as 1 - 2 - 3
I'm gonna rip it right out of your mind
I think you're a little slow on the uptake
we don't have no relief funds
we don't give out handouts here
we don't tolerate fools
we don't need no bodhisattvas
we don't tolerate fools
we don't need no bodhisattvas
the walls are slanted so now that you 're in
you can never get out again
look out control freak
look out control freak
it's happening to you.
