

Apt 3g, White As A Sheet

Your battle - a war you gotta wage
you're rattled by the crises of this age
you think everything would be alright
if everybody you saw white
intimidated by people different than you
that must be reason you act the way you do
you're wrong and that's the bottom line
one day you're gonna hear your own battle cry
why you gotta live round here
why you gotta live
why you gotta live round here
in all actuality you're just a retrograde oddity
you make me laugh, cause you'll never see it
coming
history, my friend, is passing you by
and you don't even get it
why you gotta live round me
why you gotta live
why you gotta live round me
Jews control the world that's what's in Five Percenter's heads
that's a mighty strange boat you're in
hope you all know how to swim
you're white as a sheet you're never giving it up
you're white as a sheet you'll never get it back
you're white as a sheet you're never giving it up
you're white as a sheet get down and boogie.
