

# Apulanta, Hours

The night I'm all fucking fucked up  
The night when all the stars fell down  
The night is nails back in my skin  
So goddamn true, there's just too much time

The night is all eternity  
The night that burns my eyes like fire  
The night when demons laugh at me  
So goddamn true, it's just too much time

You don't fucking deserve me

There is just too much time
