

# Aqua, An Apple A Day

You know an apple a day, won't keep the doctor away...

Welcome to the cliches, welcome to the part  
Where we wanna finish, what we can't start  
come and get me  
Just don't miss the water, until the well is dry  
You got to learn walking, after you can fly  
come and get me

What goes in, will get out, what goes up, comes right down  
We go up we go up we go up

You know an apple a day won't keep the doctor away  
We're never taught what we teach and won't practice what we preach  
You know an apple a day won't keep my troubles away  
Once bitten bye, bye All the cliches here to die

Just eat all the people on your way up  
Cause they'll eat your heart out on the way down  
come and get me  
Start what you can't finish stick to what you can't  
Life is here to help us get things out of hand  
come and get us

What goes in will get out what goes up comes right down  
We go up we go up we go up

You know an apple a day won't keep the doctor away  
We're never taught what we teach and won't practice what we preach  
You know an apple a day won't keep my troubles away  
Once bitten bye, bye All the cliches here to die

Cause you are what your eating (Cause you are what your eating)  
don't stick to what's true (don't stick to what's true)  
You are what you eating (cause you are what your eating)  
let it come as it came  
We are what we are what's build up will fall  
Do what you want and be happy, be happy, be happy

You know an apple a day won't keep the doctor away  
We're never taught what we teach and won't practice what we preach  
You know an apple a day won't keep my troubles away  
Once bitten bye, bye  
All the cliches is here to die

Cause you are what you eating don't stick to what's true  
You are what you eating

let it come as it came

We are what we are,  
what's build up will fall.  
Do what you want,  
and be happy.
