

Aqua Timez, ?

== English ==

The dawn swells up beyond the deep darkness, a silent radiance
Of course there are ups and downs, stops and starts

In order to not have any regrets myself, I tell the sun "It's gonna be alright"
Believe in love & peace in order to send that message out
Kick da verse in order to kick the complaints
These repeating days are fantastic, however getting my ideals in my hands
Is not such an easy thing, so I sweat to the success

Wake up, wake up now, eventually you'll open the door yourself
Remember, don't lose; Just keep on movin' on
In the middle of a beautiful silence, there are a lot of flourishing sounds
There are all sorts of individuals, you've still got a lot of potential from here on out

A challenger who is constantly pushing the limits, will go head on and step by step
Day by day, everyday at the start line, slipping through the stereotypes to the top floor
The resonance of a passion that is just the opposite of simple scene that is too vague
Sound them out; Sound out the days more and more, "give it away";

Wake up, wake up now, eventually you'll open the door yourself
Remember, don't lose; Just keep on movin' on
In the middle of a beautiful silence, there are a lot of flourishing sounds
There are all sorts of individuals, you've still got a lot of potential from here on out

The dawn swells up beyond the deep darkness, a silent radiance
Of course there are ups and downs, stops and starts

A deep breath; Alright, I'm hoping that I have the courage to step onto
The far off road to victory that's before my eyes; Here I go, without being timid

Wake up, wake up now, eventually you'll open the door yourself
Remember, don't lose; Just keep on movin' on
In the middle of a beautiful silence, there are a lot of flourishing sounds
There are all sorts of individuals, you've still got a lot of potential from here on out
