

Aqueduct, Keep It Together

I know it's none of my business,
But if in the end you get hurt
I'll feel responsible
Taking over your business,
Before you piss it away

Well, you've been flying blind
People never change
Bitch don't even try
You've been flying blind,
You've got to keep it together

You say your wander is aimless
It's a wonder you've come so far
On beauty, luck and love
For a life filled with
So much emptiness
Once you get off the ground

Well, you'll be flying blind
People never change
Bitch don't even try
You'll be flying blind,
You've got to keep it together

You've got to keep it together (x5)
Swear to me you won't fall apart
You've got to keep it together
Swear to me you won't fall apart

You're falling into your old ways
The harder habits to break
Will do you better
You're falling into your old ways,
Before you get off the ground

Well, you'll be flying blind
People never change
Bitch don't even try
You'll be flying blind,
You've got to keep it together (x4)

Before it all falls apart, again
