

# Arabesque, Caballero

You are a very noble man  
Descended from a noble clan  
You live by the rules of your family  
You can't marry me  
For I am just a humble girl  
Not born to see the great big world  
Our love can't be more than a secret love  
For no one to see

Caballero, caballero  
You're a famous man in town  
I must wait out of sight  
Till you kiss me tonight  
Caballero, caballero  
So delightful, so delightful  
Caballero, caballero  
If you ever let me down  
I'll be crying and crying all night  
But I'll be gone  
Just like the evening sun

In dreams I'm rich and you are poor  
And I am looking for amor  
I pick you up in a street cafe  
Where you spend your days  
We're driving to my grand hotel  
My heart's aflame, you're looking swell  
I won't set you free for you love must be  
Only for me

Caballero, caballero  
You're a famous man in town  
I must wait out of sight  
Till you kiss me tonight  
Caballero, caballero  
So delightful, so delightful  
Caballero, caballero  
If you ever let me down  
I'll be crying and crying all night  
But I'll be gone  
Just like the evening sun
