==English translation==

Once, I was in love with you  
I was very happy with you  
But then you played around  
Don't come close to me

Go away, I don't want you anymore  
I don't wish to see you anymore  
Go away, I love someone else  
I don't wish to see you anymore  
(Repeat 2X)

Once, I was in love with you  
I was very happy with you  
But then you played around  
I do not desire you anymore

Once, I was in love with you

Don't come close to me
