Arcade Fire, Cold Wind

In the middle of the summer I'm not sleeping Cold wind Blowing

In the middle of the night they Try to find me But I'm still Driving

If you're going to San Francisco Lay some flowers On the Gravestone

There's music on a station And I'm just listening To cold wind Whistling

And if they ever find me Tell the papers Cold wind Cold wind Cold Cold wind blowing Cold wind blowing

Hey hey hey

Something ain't right Something ain't right

And if they ever find me Tell the papers Cold wind Cold wind Cold cold wind blowing Cold wind blowing Cold wind blowing Cold wind blowing Cold wind blowing.....
