

# Arcade Fire, The Woodland National Anthem

I guess well have to move  
The neighborhood is on to us

Lets join the little babes  
Throwin rocks in front of us

Riding on my bicycle  
I pass my sister on a bus  
Lets take the country road before our parents send for us

Trees keep fallin at my feet  
I guess its time ot build a boat  
Make a raft of our bodies  
Do you think that itll float?  
What I said was not a joke,  
But you just licked the envelope  
Im tired of dating, lets elope  
But you just licked the envelope

Three cheers for my parents,  
Lonely failed experiments!  
Three cheers for my parents,  
Lonely failed experiments!

Dont you dare blame my parents  
Im the only failed experiment  
Dont you dare blame your parents  
Youre the only failed experiment  
Dont you dare blame your grandparents  
Moms the only failed experiment  
Dont you dare blame your grandparents  
Dads the only failed experiment  
Dont blame God  
Just blame God  
Dont blame God
