

Arch Enemy, First Deadly Sin

Step inside the circle of fire
Flames of desire enlighten the night
Follow your instinct
Burn and writhe in ecstasy

Love will turn to hate
heat will turn to ice
There is nothing in between
The first deadly sin

Ancient taboo takes control

The demon-eve possesses your soul
Riding high above the flames
You will step into hell

Lead and slide solo - Christopher Amott

Dwell in passionate evil
Forbidden fruits of lust
Embrace and kiss the face of death
It's your first deadly sin
