## Arch Enemy, Idolatress

These gardens of angst In which I stand Lost and confused Hungry for more Eager to cross This river of tears

Safe in this void In which I live Free from despair Weaving a web Surrounding my soul Imprisoned distress

[Chorus:] In a world of dying angels Trespassers on unknown domains

Traumatic defeat This time I'll burn For one thousand years Bearing the truth Deep down inside It dies with me

Taste the pure salt Of misery Hell's ecstasy Feel destiny Breathe in your neck Cut you so deep

[1st Lead - Michael] [2nd Lead - Christopher]

Twisting my mind Living in sin Dying within Wicked and mean Sinister eyes Staring at me
