

# Arch Enemy, The First Deadly Sin

Step inside the circle of fire  
Flames of desire enlighten the night  
Follow your instinct  
Burn and writhe in ecstasy

Love will turn to hate  
Heat will turn to ice  
There is nothing in between  
The first deadly sin

Ancient taboo takes control  
The demon eve possesses your soul  
Riding high above the flames  
You will step into hell

Dwell in passionate evil  
Forbidden fruits of lust  
Embrace and kiss the face of death  
It's your first deadly sin
