Come on enemy I feel you
Come on enemy I see you
Come on enemy I see you
Come on enemy I see you
Come on enemy I feel you

Take your turn
Take your turn
Here we are
No protection

Come enemy come on into me
I shut my eyes I'll burn you inside
Searing through my mind you won't make me blind
Won't let you out you're here with me now
Won't let you out I'm here with you now

Enemy
I see you enemy
I feel you
I shut my eyes

I'll burn you inside
Come on enemy
Come on into me
