(w graber)

The pit of fear and the roots of fools

I took the lies and made them rules

If it is over why do i doubt

If you don't feel then let me out

You can't become a different you

Why did i think instead of do

With all there is to lose or gain

Why do i only see the pain

'cause i feel. . . feel. . . i feel. . . feel. . . unknown. . . unknown

I have no pride for what's been done

I fought the war that no one won

I'm guilty of the guilt unclear

I only wish that you were here

A fenceless sky for the first time

I could not recognize the sign

It's how it feels like getting old

I hope the universe ain't cold

'cause i feel. . . feel. . . i feel. . . feel. . . unknown. . . unknown
