

# Arcwelder, Witness

(music: r. graber/s.macdonald lyrics: s.macdonald)

Can I get a witness  
To your constant pain  
Hear you're spinning downwards  
Thought you were the same  
Take some pride in who you are  
Stop the tide of self defeat  
Can I get a witness  
Not someone to blame

Throwing rocks at glass houses shatters everything  
Is there anyone I know who hasn't done the same?  
But it's all their fault and you didn't do nothin' did you now?  
And it's all their fault and you didn't do nothin' did you now?

Can I get a witness  
Where's your sense of pride  
I know you used to have one  
It's been pushed aside  
Think about responsibility  
You don't have to be the victim  
Can I get a witness  
Not just one more ride

And you want to play all aces, all you have's a duce  
You're the last one at the table anyway  
And we all make mistakes but we all learn from them and move on  
And we all make mistakes but we all learn from them and move on

Can I get a witness  
Is there one at all  
What's the best for yourselves  
Is what you both recall  
Drop it now and move along  
Everyone has forgotten it  
Can I get a witness  
To your free fall

Cause I worry that this story's just the iceberg's tip  
It gets so hard to know just what I believe  
But it's all about trust and you know I trust you I do now  
And it's all about trust and you know I trust you I do now

Can I get a witness?  
Can I get a witness?
