

# Ari Hest, Come Home

I don't need no evidence  
Written in a paper card  
Saying that you miss me, that living alone is awfully hard

Just come home as soon as you can  
Come home, don't ever leave again  
Then together we will spend, every moment till the end

I don't want no diatribe  
Telling me how you feel inside  
Words can be quite vivid, but they can't bring you to me live

Chorus

Its Only 3,000 miles, give or take a few  
Its only 3,000 miles, between my hands and you

I don't need no good luck charm  
Hanging around my big old neck  
Nothing in this world could make your being away correct

Chorus
