

# Ariana Grande and Victoria Monét, MONOPOLY

Ariana:

Yeah

Victoria:

I've been on the road, where you been?  
 Real protective with my soul, where you been?  
 Is your GPS even on, where you been?  
Matter of fact, I don't even care where you been

Bad vibes, get off of me   
Outta here with that fuckery   
Treat my goals like property  
 Collect them like Monopoly   
I probably   
Won't come if there's not a fee  
 And if they try come stoppin' me  
 I swerve both ways, dichotomy

I like women and men (Yeah)   
Work so fuckin' much, need a twinnny, twin, twin   
How you hit the club and you barely got in?   
Then we hit the bank, making them investments for the win, oh

Ariana:
