Ariana Grande, Better Days (feat. Victoria Monet)

[Victoria Monet & amp; Ariana Grande] Baby, there's a war right outside our window (Don't you hear the people fighting for their lives...?) Baby, there's a war right outside our window But it's gon' be alright 'long as I got you with me...

In your arms, I find my shelter Deep in your love, I will hide Baby, you and me stop the world when we're together You find a way to take my mind [Chorus 1: Victoria Monet + Ariana Grande] Hoping for better days, better days Days where things are better Hoping for better days, better days Need some better days, better days Days where things are better Hoping for better days, better days Days where things are better Hoping for better days, better days Need some better days, better days Need some better days.

I can hear the sirens right outside our window And I can hear the children crying while their mothers cry I'm praying for the people right outside our window Hoping they find peace at night, just like you and me

In your arms, I find my shelter Deep in your love, I will hide Baby, you and me stop the world when we're together You find a way to take my mind

Hoping for better days, better days Days where things are better Hoping for better days, better days Need some better days Hoping for better days, better days Days where things are better Hoping for better days, better days Need some better days

So how we gonna stop the violence, stop the hurting? Stop the hatred, stop the murders We're all human, that's for certain Come together, we deserve it What kind of life will our babies have if we don't change up and make it last? It starts right here, starts right now We'll love and hope for...

Better days, better days Days where things are better Hoping for better days, better days Need some better days Hoping for better days, better days Days where things are better Hoping for better days, better days Good ol' better days

(Better days, oh, yeah, better...)
