

# Arid, I Don't Know Where I'm Going

You

You

See

I don't know where I'm going

I see a light

I'd fix it all if I could this time

Stretched out before me

I can only see

See the light

Burning out

See the love

As it goes

And it wars you out

Could you have been

All that you wanted to

Carry me, carry me home

I don't know where I'm going

If you see the way

I could hold you through the night and day

Stretched out before me

I can only see

See the light

Burning out

See the love

As it goes

And it wars you out

Could you have been

All that you wanted to

Carry me, carry me home
