Armin van Buuren Feat. Victoria Horn, Wait For Y

Under my soul, I hide, chasing emotions
Can't you see?
If I let it go, will we reveal a sign of devotion?
All you feel
Sometimes there's a moment
Sometimes we don't see
Now we stand to frighten, scared to believe
Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep
The touch of your hand, on me
A night everlasting, comes too deep
Don't make me wait, for what I need
This passion is burning, deep in me

Sometimes there's a moment
Sometimes we don't see
Now we stand to frighten, scared to believe
Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep
Now I wait for you
Till you wake me, from my sleep
And I'll wait for you
Let my voice be, yours to keep
Wait for you
Wait for you
Wait for you
