

# Armor For The Broken, Call It A Tragedy

Wait with me  
down by the lake  
the water's so beautiful  
and so is her face  
kill this trend  
baby we'll play pretend we're invisible again your word cut like broken glass  
the pain it hurts  
but it doesn't last  
I'll bottle it up  
and save it for the next one

Wait with me  
down by the lake  
the water's so beautiful  
and so is her face  
kill this trend  
baby we'll play pretend we're invisible again

don't worry nothing's safe  
just try your hardest not to scream  
don't worry nothing's safe  
just try your hardest not to scream too loud

Wait with me  
down by the lake  
the water's so beautiful  
and so is her face  
kill this trend  
baby we'll play pretend we're invisible again (X2)
