Armored Saint, After Me, The Flood

Help me write these words down I'll write a great song to die to Cause my days are numbered And it's certain that I'm gonna drag you I don't plan on going alone I need a friend like a typhoid mary We'll walk with a goose step With vigor and might that's scary

There I go (down) And I'm lovin' it

Dig way deep in Bid farewell to a world I can't live in I scratched the surface And found pride was paper thin I tried evil I wish it had more of and impact Cause faith ain't helping To rid the apes on my back

After me come the flood
