

Armsbendback, This Could Be

Running round and round
Make me lose my mind any time now any time now
Make me scream and shout
Make me blow my mount any time now
You made a way to shine my heart you know it's easy
You make me want to shine my heart you know it's easy
How can I avoid what I can't control any time now any time now
This is simply the best day that I know
and it's fine now any time now
The way you look at me I'm going crazy
