

Army Of Lovers, C'est D

C'est Dmon every day away from you
C'est Dmon every night I'm going through
Every trick I have tried
To get by while you are gone
How can I get along
C'est Dmon

C'est Dmon hear you whisper on the phone
C'est Dmon when you say how much you long
For my body to stay
Next to you where I belong
Every long distance call
C'est Dmon

Any drink that I drink
Any lover I see
Without you what's the point being free
Where's the world going to
When I'm still missing you
All I ask you return loving me

C'est Dmon every day away from you
C'est Dmon every night I'm going through
Every trick I have tried
To get by while you are gone
How can I get along
C'est Dmon

C'est Dmon hear you whisper on the phone

C'est Dmon when you say how much you long
For my body to stay
Next to you where I belong
Every long distance call
C'est demon

All the diamonds I wear
All the money I make
Without you by my side I'm a fake
Where's the world going to
When I'm still missing you
All I ask you return for my sake

C'est Dmon every day away from you
C'est Dmon every night I'm going through
Every trick I have tried
To get by while you are gone
How can I get along
C'est Dmon

C'est Dmon hear you whisper on the phone
C'est Dmon when you say how much you long
For my body to stay
Next to you where I belong
Every long distance call
C'est Dmon
C'est Dmon
C'est Dmon
