

# ArrDee, Cheeky Bars (Pt 2)

KPB

It's a real spill

ArrDee, you already know the deal, hey

Look, uh

You see me smiling 'cause I'm cheeky

But I'm smiling through the pain

I can speak on it for days

Was on my knees up in the rain

Not a penny to my name

Darlin', shit, ain't always lit

And I weren't always legit, ah

From kid, I have been a little shit

The picture wasn't perfect, it was worth it though

It made me who I am, so if I win, then I deserved it

Mother put the work in, I can see it now I pree it

It was me, my mum and brother, made it work with what she's earning

I flipped a bit of weed, couples G's were kitty serving

When you grow up by the sea, all you see is nitties lurking

I can tell you bout my teens

As a kid, I always wanted more

I just didn't know it at the time

I used to rob the corner shop for a couple sweets

Was always playing out, weren't sitting playing PS3

010 I met my dad

Always heard that they could see the man in me

I didn't know the man he was

The more you grow the more you know I s'pose

School, I didn't like it, still I got my grades

I'd smoke a zoot to start the day, the gally knew I'm always blazed

Had this chick up in math

She was baffed I passed the test

You ain't revising

You're sleeping in the class and writing bars

I had her smiling

See I ain't ever tried, I put trust into the timing

Used to watch my mum grind before I knew about the grinding

Why I never rest, how I live my life it can get tiring

I can never slow down tryna secure the bag

So I put in the graft, I ain't sitting on my ass

Putting in a shift, make a hits or filling up my glass

I see the fakeness in their eyes and they ain't gonna last

She see the greatness in my lines like I just done a halfie

Naughty ArrDee

Been an azbo with the lads when he was thirteen

See I was good at heart, but the cards I'm dealt were dirty

Trust, mad snakey

But life ain't fair, it be more about what you make it

Saw my chance, I had to take it

My heart, they had to break it

Countless times they stabbed my back so I can take it

My ex is mad, the sex is madder, have to face it

I get it off my dad the way I'm always off my face

It's bad

If you seen what I have, you'd do be same

I never had no plan

Up in my town, we getting waved

How we getting through the day, I'm a chav, baby cakes

Used to cool off at the skatepark, but we weren't ever skating

The way I got from there to here's amazing

I never had shit and it weren't given, I was taking

Come from the bottom how I know I gotta win

This music, it's in my blood

I got it tatted on my skin

Ha, ArrDee

ArrDee, ah

Ha, remember the name

Comin' for them, you know it

Yeah, I'm out
