

# ArrDee, Flowers (Say My Name)

(It's Tekky)  
Hey, ooh  
Whoa, baby (WhYJay)  
Hey, ooh  
Whoa, baby  
Ah, ah, ah  
ArrDee, ArrDee

I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain  
I can still make you say my name, say my name, say my name  
Life without me might drive you insane  
I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain  
I can still make you say my name, say my name, say my name  
Life without me might drive you insane

Nah, babe, I can't make your day but I can make your night  
See, I ain't the trustin' type and it's lust, not love  
And she said, "I'm done this time 'cause  
You make love to me like I'm the one  
Then run off and duck my calls for a month  
Make me feel special and then like a mug  
Got you up in my guts but I hate your guts"  
I come back, darling, why you rantin'?  
Girl, I'm single, and I always have been  
Never promised you nothin' but panting  
Sweating 'em plans on a late night antics  
She said "You don't show me no respect  
And you're only callin' me for the sex"  
At least I call 'cause the rest just all come crawlin'

I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain  
I can still make you say my name, say my name, say my name  
Life without me might drive you insane  
I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain  
I can still make you say my name, say my name, say my name  
Life without me might drive you insane

Might drive you crazy, psycho  
I'm wavy so I'm textin' typos  
But you know what I'm on, come mine, girl  
We can stay up all night 'til the light show (Come through)  
She said, "If I'm comin', I'm comin' to talk  
Ain't comin' to cum 'cause I'm done and I'm bored  
Not some little whore who will come anytime that you call  
We ain't cool anymore"

Ahh, tsk, why you gotta be like that?  
You know you'll miss me and you'll be right back  
And you're not a whore, you shouldn't speak like that  
I'm nothin' but honest, you know how it is  
The life that I live, I don't want a chick, I don't wanna settle  
You know you're my favourite petal, but-

I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain

I can still make you say my name, say my name, say my name  
Life without me might drive you insane  
I don't give girls flowers, I'll give you good wood though  
If you want me all for yourself, then, darling, you probably should go  
There's no way I'ma stand in the rain  
I can still make you say my name, say my name, say my name  
Life without me might drive you insane

I'll bring you flowers in the pouring rain  
Living without you is driving me insane  
I'll bring you flowers, I'll make your day  
The tears you cry, I'll dry them all away, away
