

ArrDee, ONE DIRECTION (feat. BugzyMalone)

I got bare man's gyal in my section
Been on me from high school, I was coming like Zac Efron
She love the gang, fucking with Louis but we ain't One Direction
Hold on wait, there's not enough space
We're picking out babes at random
If she wanna stay, come to the mansion
Make that shake, Megan Thee Stallion

I'll take mans girl
She makes you go down when I ain't pulled out (wow)
The things girls do for the clout
Like Flying Dubai, to get shit in your mouth
I don't think I ever wanna daughter, serious
You got jokes if you think you can chill with the big boys
Comedians stay clear of us
Eddie Murphy mandem - delirious
We don't ever get no down time, lit lit
Why you think I'm always outside
Big dick she can't fit in her mouth right
And she shocked cuz heights all down sized
You know what they say
Big things small packages
Little me don't ever miss
You would think I'd behave cuz I'm rich
But I'm still taking the piss, ya dig

I see her in vogue
So I got involved
Eligible bachelor I'll indulge
Tell her it's all night there's no going home
Giving her whiplash
Gonna feel like she been in a big crash, a write off
Alakazam, switch the light off
I been hitting the gym, I know my stuff
I just want to put her legs in the air
Big red hand print on her derrière
Got man growling like a bull terrier
Lock jaw like a pit can't go anywhere
Holding her tight grabbing her hair
It's lit till the sun comes up are you mad
She said I am the best she ever had
No cap
I've been away but I'm back
It's the return of the Mac
