Arrogant Worms, The  
Miscellaneous  
Proud To Be Canadian  
Our fair country canada  
Is north of the usa  
Our maritimes are lovely  
And our prairies give us hay  
You might think you yankees  
Are better than us canucks  
But we don't need no microchips  
Inside our hockey pucks

The vikings left us newfoundland  
We're stuck with england's queen  
The swiss give us their army knives  
The french give us poutine  
We watch american tv shows  
For hours and hours and hours  
We'll export alan thicke  
But shania twain is ours

We're proud to be canadian  
We're awfully nice to strangers, our manners be our curse  
It's cool in many ways to be canadian  
We won't say that we're better, it's just that we're less worse

We are a northern people  
Who love the wintertime  
For about two weeks  
And then we start to whine  
So we go down to florida  
For all its southern charms  
But when we get sunburned when we exercise  
The right to bare our arms

We're proud to be canadian  
We're awfully nice to strangers, our manners be our curse  
It's cool in many ways to be canadian  
We won't say that we're better, it's just that we're less worse

Pamela anderson lee  
Is the treasure of our land (uh huh)  
We all tune into baywatch  
To see her frolic in the sand (watch her jiggle now)  
She's just as canadian  
As &quot;how's it goin', eh?&quot;  
Though most her parts above the waist  
Were made in the usa

We're proud to be canadian  
We're awfully nice to strangers, our manners be our curse  
It's cool in many ways to be canadian  
We won't say that we're better, it's just that we're less worse

We're proud to be canadian  
We're awfully nice to strangers, our manners be our curse  
It's cool in many ways to be canadian  
We won't say that we're better, it's just that we're less worse

Tears are not enough
